SRIHARSHA VELICHETI

srih8991@gmail.com | Github | LinkedIn | Phone:+91 8309012139

SUMMARY

Motivated AI enthusiast and data science trainer with a Bachelor's degree in Computer Science Engineering. Skilled in machine learning, AI-powered applications, and problem-solving. Proficient in Python, RDBMS, advanced machine learning, prompt engineering, and LLMs. Seeking to apply technical skills in a dynamic, customer-facing environment.

EXPERIENCE

Research intern @ Siemens

- Implemented a scalable, end-to-end multi-model Retrieval Augmented Generation (RAG) application utilizing open-source Large Language Models (LLMs) to ensure data security and privacy.
- Worked with various data files like PDF, DOCX, CSV, and Excel and also with Different teams to get data from various Sources
- **Technologies used:** Langchain, llama_index, Qdrant, HuggingFace, Python, Flask, Streamlit.

PROJECTS

POC: Industrial Image Analysis with Multi-model RAG

- **Automated analysis:** Extracted image details using GPT-4v model and Langchain capabilities.
- **RAG integration:** Retrieved SOP recommendations via RAG (Gemini-pro model).

RAG automation application| (Using Langchain, Qdrant, Unstrucutred & Docker)

- Built a RAG application for efficient text, tabular information extraction using Langchain and Unstructured frameworks.
- Capable of aggregation operations on Excel & CSV files using SQLite agent in the backend.
- **Technologies used**: Langchain, Qdrant, Unstructured, Docker.

SKILLS

- **Data Analytics:** Python, SQL(MySQL & Postgre), Google Sheets, Excel
- **Machine Learning**: Advanced ML, Language Models
- **Tools:** Power BI, Streamlit

EDUCATION

Jain University | Bengaluru *Oct 2020 - present*

- Bachelor of Technologies CSE (Data Science) - CGPA 8.756

FIITJEE Junior College | Vijayawada *June2018-July2020*

- Class 12 MPC - Marks 9.89/10

ACHIEVMENTS

- President of ANOVA Datascience Student club in JAIN UNIVERSITY for 10 months.
- Part of Google Developer Student club as a Data Science Facilitator for 11 months.
- Golden Badges in Problem solving, MySQL, Python in hackerrank platform
- Solved over 250+ questions in Leetcode.
- Secured 3 bronze medals in Kaggle as a Discussion contributor.
- Secured 6th individual position out of 159 participants in MACHINE HACK hackathon with an accuracy of 92.666%
- NPTEL Python for Data Science Certification, ranked 4569 out of 15000+ applicants.
- Successfully hosted 2 hackathons in ANOVA and 1 workshop in GDSC at JAIN UNIVERSITY
